

Introduction to our topic

We are artists; we can dance, sing, perform and sew. We may also get a little messy in the process.

This term Dragonfly Class will have many opportunities to demonstrate their creativity.

We will be inspired by the work of a range of artists and will create our own magnificent masterpieces using poster paints, watercolours, oil pastels and photography. In the process of making our art, we will develop the skills of colour mixing and sketching.

In our DT lessons, we will take inspiration from a range of cushion covers to help us design, make and evaluate our own. We will be learning how to thread a needle and to use a running stitch.

At the end of our topic, we will have the opportunity to share some of our artwork. We will also perform some of our songs, music and dances in front of the rest of the school.

Our key learning this term

Personal and social development	Our school value this term is ambition. At start of the term, the child will set themselves ambitious goals which they will work towards achieving by the end of the term.
Oracy and literacy	<ul style="list-style-type: none"> - Fairytales (Snow White) - Instructions - Poetry
Problem solving and Maths	<ul style="list-style-type: none"> - Place Value to 100 (Year 1) - Statistics (Year 2) - Division - Length and Height
Technology	In computing this term we will be working on digital art. We recreate a piece of art using a computer program. The children will also learn to manipulate shapes and objects to recreate an art style. The children will also have the opportunity to take a video on the Ipad.
Science	We will be able to describe how important it is for humans to eat the right amounts of different types of food (PSHE link).
The Arts (Art &	DT - During our DT lessons the children will explore and evaluate a range of existing

Design, Music, Drama)	<p>products. They will then design and make a purposeful, functional, appealing product for themselves and other users based on their design criteria. After the children have made their product, they will evaluate their ideas and products against design criteria.</p> <p>Cooking and nutrition- We will use our understanding of a healthy and varied diet to follow recipes and prepare dishes.</p> <p>Music -We will begin to learn about rhythm, dynamics and musical notations when creating our own music. The children will have the opportunity to name and play a variety of different instruments.</p> <p>Art- In our Art lessons we will be focusing on the artists LS Lowry and Pieter Bruegel. We will have the opportunity to create paintings inspired their work, make a class collage and to develop our understanding of colour mixing.</p>
History	In our History lessons we will be learning about Pieter Bruegel and LS Lowry. We will look at a variety of their artwork to help us to gain an understanding of life at the time the paintings were created.
RE	We will be learning about Judaism in RE. The children will learn where people of Jewish faith worship, the importance of the Torah and how the Sabbath is observed.
P.E.	In PE we will be learning about dance. The children will focus on agility and moving in various ways in different direction. They will have the opportunity to perform dances using simple movement patterns.
Modern Foreign Language this term	In Spanish we will be listening to and responding to rhymes, stories and songs to continue to develop our understanding of Spanish numbers to 31.

Activity Passport Experiences
