

What is the total of each row of money? Can you write your answer with a decimal point?

1. 
2. 
3. 
4. 
5. 
6. 
7. 
8. 
9. 
10. 

Can you compare these amounts using the $>$ $<$ and equal signs? Remember that the largest part of the sign is next to the largest value

	<input type="text"/>	
	<input type="text"/>	
	<input type="text"/>	

Fill in the gaps to make the statements correct.

- $£10 + £5 + 50\text{ p} = £____ \text{ and } ____ \text{ p}$
- $£20 + £2 + 10\text{ p} + 10\text{ p} + 2\text{ p} = £____ \text{ and } ____ \text{ p}$
- $£5 + £____ + 50\text{ p} + 20\text{ p} + 20\text{ p} + 1\text{ p} = £10 \text{ and } ____ \text{ p}$

How many ways can you complete the part-whole model by drawing money?

There are lots of different answers. You can write them out as calculations.

$$£5.20 = £5 + 10\text{p} + 10\text{p}$$
