

WELCOME TO EDWARDS AND WARD

Food & Ingredients

We believe that it is important that our food looks good, tastes delicious and satisfies the children.

Lunchtime is when the pupils can relax and socialise with a delicious meal that will keep them nourished and sustained throughout the afternoon.

We are passionate about food and are here to help the pupils choose a balanced diet by creating attractive and nutritious menus and providing engaging information about how to eat healthily.

We use the best ingredients from our suppliers to make your lunches that are cooked fresh every day in your kitchen.

The Menus

The focus of our menu development is on quality and variety; they are designed to be attractive and appetising. Understanding that eating habits change as we grow means we are constantly looking for ways to develop with your children.

Having feedback from the pupils throughout their time at school is essential to help us understand their likes and dislikes whilst maintaining our focus on encouraging, educating and promoting our offer.

A planned calendar of events.

Delivering tasty and nutritious lunches is what we do every day but we also like to maintain interest for the pupils by working with the school to support their curriculum. Our event diary for the year is planned to ensure we can keep the children interested with themed lunches and tasting tables to help broaden their food horizons.

During each term we will hold many events to keep lunchtime interesting for all the students. "talk like a pirate day" and "seasonal tasting table" these are just some of the fun days we have planned.

Enrichment

We also help with enrichment activities in school through food demonstrations with parents and students and healthy eating work shops.
